

VILIGANS COMMAND CORPORATION

Executive Summary | Wyoming Rural Special-Needs Transportation Pilot | Draft for review

Mission

VILIGANS COMMAND CORPORATION is building DOCS 8404 Logistics & NEMT LLC as a Wyoming-focused rural mobility and non-emergency medical transportation operating platform. The mission is to improve scheduled, non-emergency transportation access for rural residents, seniors, individuals with disabilities, special-needs riders, veterans, and patients who need reliable access to healthcare, community services, employment, and essential appointments.

Launch Objective

Launch a compliant, contract-backed Wyoming rural special-needs transportation pilot within 90 days. The pilot should begin with limited geography, scheduled trips only, commercial insurance, documented driver qualification, accessibility procedures, partner referrals, and weekly performance reporting.

Fastest Path To Funding

The fastest path is an anchor partner arrangement before relying on grant awards. VCC should secure one written LOI, MOU, paid pilot agreement, or sponsored ride-block commitment from a hospital, clinic, county agency, senior center, disability provider, VSO, employer, church/civic organization, or local sponsor. That commitment can support insurance, vehicle financing/leasing, operating authority readiness, grant applications, and lender underwriting.

Service Model	Launch Requirements	Funding Stack
Scheduled non-emergency rides; rural/small-community focus; senior, disability, veteran, special-needs, healthcare-access trips; no ambulance or emergency response.	Wyoming entity proof; signed governance and ownership/control records; SAM/UEI; WYDOT authority path; insurance; accessible vehicle; driver files; operating manual; partner LOI; budget.	Anchor contract, sponsorships, WYCF readiness, WYDOT/FTA next-cycle path, VA HRTG partner path, SBA VetCert readiness, lender package after partner proof.

Immediate Ask

- Anchor pilot partners and letters of support.
- Sponsorship commitments for ride blocks, vehicle readiness, and community outreach.
- Grant-eligible public or nonprofit partners willing to include VCC/DOCS 8404 as operator, contractor, or subrecipient where permitted.
- Insurance, vehicle, compliance, and local referral partners.
